

Waters Empower Chromatography Data System Network Subscriptions

Flexible, scalable subscription options for your evolving lab

INTRODUCTION

Empower™ Subscriptions offer a new way to access Empower Software, our trusted chromatography data system (CDS), in combination with innovative cloud-based applications. With lower upfront software costs and scalable options for small networks to global enterprises, Empower Subscriptions make it easier for organizations of all sizes to harness the full potential of their chromatographic data, reduce operational and compliance risk, and free up capital to invest where it matters most.

- **Tailored subscription bundles:** Choose the right fit for your lab with three options (ES1, ES3, and ES5) designed to match your current needs and scale as you grow
- **Flexible and scalable:** Easily adjust your subscription as your business needs change, without long-term commitments or large upfront investments
- **Accelerate productivity, enhance compliance-readiness, and drive insightful decisions:** Get streamlined access to Empower Software updates and Waters cloud-based applications designed to provide secure, real-time monitoring and data access
- **Boost team productivity and simplify onboarding:** Provide comprehensive, on-demand, self-paced training, available whenever your staff needs it
- **Maximize lab efficiency and reduce risk:** Access all Empower Software options and stay current with continuously updated cloud tools and instant access to the latest features

FOR YOUR LAB

Experience the reliability of Empower Software enhanced by modern cloud-based tools that simplify how you monitor and manage your chromatographic data. With flexible deployment options and lower upfront costs, you can scale your lab's capabilities seamlessly and stay current with the latest innovations.

FOR YOUR BUSINESS

Achieve greater operational flexibility with a predictable, subscription-based model that simplifies budgeting and reduces capital expenses. Our industry-leading CDS, combined with centralized license management, makes it easy to scale usage up or down based on demand—helping you plan, adapt, and manage your lab's digital strategy with greater confidence and control.

WHICH EMPOWER SUBSCRIPTION BUNDLE IS RIGHT FOR YOU?

ES1: ESSENTIALS FOR EVERY LAB

Enhance lab efficiency and reduce risk with a comprehensive suite of essential tools designed to automate workflows and simplify data management. From core workflow options to automate workflows like Empower System Suitability, GPC, and Dissolution, to productivity boosters like Waters™ System Monitoring Software and Empower Sample Set Generator, you’ll have everything you need to keep your lab running smoothly, including access to Waters expert support.

ES3: ENHANCED SOLUTIONS FOR COMPREHENSIVE SUPPORT

Transform your lab operations with a powerful, all-in-one Empower CDS bundle that combines essential automation tools with advanced capabilities for method development, validation, and data sharing. Streamline complex workflows, reduce manual steps, and improve data quality with tools like the Empower Method Developer application, Empower Method Validation Manager, and the Chemical Structures option. Whether you are developing, validating, or transferring methods or collaborating on projects internally, cloud connectivity enables seamless data access across teams, locations, and Empower Software versions. Plus, comprehensive training resources help your staff ramp up quickly and stay productive.

ES5: INNOVATING THE ENTERPRISE EXPERIENCE

Take your lab to the next level with a comprehensive and fully integrated Empower CDS solution designed to support every stage of your digital transformation journey. Combining essential workflow automation, advanced method development and validation, and collaborative data sharing, this solution helps streamline operations, improve data quality, and lower method transfer and validation risks for more resilient methods.

With secure cloud capabilities, you can easily share data with external partners and collaborate globally—without compromising control. Built-in AI and ML tools speed up chromatogram review and anomaly detection, helping your team make faster, more informed decisions while reducing the risk of oversight in data review and trending. Supported by centralized license management, continuous software updates, and comprehensive training resources, your team stays productive and compliance-ready, while your lab remains agile, scalable, and flexible.

STREAMLINED DEPLOYMENT WITH WATERS PROFESSIONAL SERVICES SUBSCRIPTION OPTIONS

Staying current with software is a necessity. As technology evolves, so do the risks of falling behind and of non-compliance with CGMP standards. Designed to transition you from a 5-year upgrade cycle to a 3-year upgrade cycle, Waters Professional Services Subscriptions help reduce risk across your organization while enabling you to take advantage of your Empower Subscription, so you can benefit from new features, faster.

Waters Professional Services Subscription Advantage

FLEXIBILITY — Stay agile with service options that adjust to evolving business needs.

LOWER UPFRONT COST — Save 40% off listed services prices including value-added services.

MAXIMIZE INVESTMENT — Benefit from expert software installation and specialized training to drive your science and maximize your success.

EFFICIENCY AND SCALABILITY — Accelerate validation with risk-based, scalable Computer System Validation (CSV) strategies.

ANNUAL HEALTH CHECK — Keep your Empower Software system at optimal health.

PREMIER PARTNER — Benefit from a comprehensive services engagement throughout the subscription term. *(Advanced and Premium tiers)*

Select one of the four bundled options to maximize your Empower Subscription. Select for each instance to optimize based on your environment.

- **Basic:** Includes deployment services and Empower Software training
- **Essential:** Includes the Basic option plus Tier I Validation and an annual Empower Software system health check
- **Advanced:** Includes both the Basic and Essentials options plus Tier II Validation, data migration, and Premier Partner status
- **Premium:** Includes the Basic, Essential, and Advanced options plus Tier III Validation and Waters consulting
